Instructions

To be read using the Decibel ScorePlayer or as a movie file. Each line represents a single, ongoing sound. The coloured opaque lines represents the orginal reference pitch for the performers reference. Each dip is a pitch intervention with that line, in a direction and shape suggested by the score. The score is proportional, that is, each line has a relationship to the other lines in terms of pitch and time. Important synchronisities are indicated with a vertical dotted line. Dynamics are as marked.
